SCIENCE CLUB

Does your child enjoy learning about science through hands on activities and experiments? Well, here's your chance to sign your child up for "Science Club". We will start off by discussing the science topic we will be exploring. Then, we will use the rest of the time to transform into scientists and get busy with hands on activities and experiments! At the end of each session, we will have discussions as well. Each time we meet, you will be asked to send in a fruit, vegetable, or dairy snack for your child to enjoy right after school. After getting our bodies refueled, we will get right to work. You will get a copy of the experiments and activities so that you may also complete them at home. We hope to see your child at "Science Club"!
