January 15, 2021

Dear Flemington-Raritan Regional School District Parents and Community Members,

This is a reminder to all families that the District is closed on Monday, January 18, 2021, in observance of Martin Luther King Jr. Day. No instruction will be held on Monday. This is an important time for us all to be reminded of the importance of service, civility, equality, and tolerance as we remember Dr. King.

The District has received notice of a positive COVID-19 case of a staff member at Francis A. Desmares School who was last in the building on January 12. The District is committed to communicating with families information that is confirmed in real-time to the greatest extent possible; therefore, multiple messages will continue to be shared when relevant and necessary.

Schedule Reminder: Barley Sheaf School remains closed for in-person instruction with an anticipated reopening date of Tuesday, January 26. Below is the district’s upcoming schedule for Grades K-8:

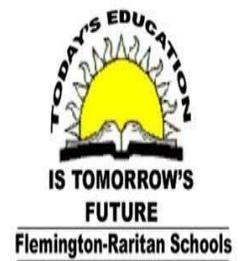

Date	Cohort A	Cohort B
January 19-22**	Remote Learning	In-Person
January 25-29	In-Person	Remote Learning
February 1-5	Remote Learning	In-Person
February 8-11***	In-Person	Remote Learning
** On Monday, January 18, school will be closed for Martin Luther King, Jr. Day. No instruction will be held. *** On Friday, February 12, schools are closed for a Staff Development Day. No student instruction will be held. ~Parents who selected all-virtual instruction for their child will continue with all-remote learning.~		

This week’s [COVID-19 CALI Report](#) continues to show Hunterdon County in the “orange.” Hunterdon County is included in the Central West region of New Jersey on the [COVID-19 Regional Risk Matrix](#). We continue to be notified of multiple students, staff, and faculty quarantined due to the COVID-19 level “orange-high risk” exclusion criteria. The District is working diligently to keep students, staff, faculty, and our community safe from the spread of COVID-19 and keep our doors open for in-person instruction.

Staff, students, and faculty must stay home if they have:

- ❑ Tested positive (viral test) for COVID-19; for individuals with close contact with a confirmed case, NJDOH continues to recommend a 14-day quarantine. While we remain in the high COVID Activity level, close contacts of positive and students with COVID-like illness should continue to be excluded from school.
- ❑ COVID-19 compatible symptoms which include: fever (temperature of 100.4 or greater) or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, a new loss of taste or smell, sore throat, congestion, or runny nose, nausea or vomiting, and diarrhea. If children experience any of these symptoms, they must stay home from school. If you have any questions about symptoms or any other concerns for you or your child, please consult your physician or speak with one of our school nurses. In children, signs/symptoms are often mild. For this reason, the New Jersey Department of Health recommends any child with COVID-19 symptoms not return to school until they have received a negative viral test or they have completed an isolation period of at least 10 days since symptom onset and at least 24 hours after resolution of fever without fever-reducing medications with symptom improvement. A purely clinical alternative diagnosis is no longer acceptable.
- ❑ Potential exposure to COVID-19 from close contact with a person with COVID-19 in the past 14 days.

- Engaged in domestic and/or international travel in the past 10 days, unless they are exempt from the quarantine recommendation due to being an essential worker:
 - [NJ Travel Advisory](#)
 - As confirmed by the Hunterdon County DOH: *Travelers and residents returning from any U.S. state or territory beyond the immediate region (New York, Connecticut, Pennsylvania, and Delaware) should self-quarantine at their home, hotel, or other temporary lodgings following [recommendations from the CDC](#): (Essential employees are excluded from the travel advisory.)*
 - *If travel is unavoidable, travelers should consider getting tested with a viral test (not an antibody test) 1-3 days before the trip and again 3-5 days after the trip.*
 - *If travelers test positive, they should self-isolate for at least ten days and should postpone travel during that time.*
 - *If travelers test negative, they should quarantine for a full seven days after travel.*
 - *If testing is not available (or if the results are delayed), travelers should quarantine for ten days after travel.*
 - [CDC After You Travel](#).

To help families that live in Hunterdon County and those that work in Hunterdon County, the County offers a free COVID test. You can find the link [here](#) to order a free COVID-19 test.

Wishing you good health,

Dr. Kari McGann
Superintendent of Schools
