DID YOU KNOW?

- 1 in 8 women will develop breast cancer during their lifetime.
- Routine screening can help prevent cancers and/or provide early detection when treatment is often less intensive and more successful.
- Cancer is the second leading cause of death in New Jersey and the United States.
- Early detection saves lives.

This program is open to women 40 years of age or older with no insurance.

Registration required by November 18, 2023. To register or speak to a navigator about additional screening resources, call [908-237-5409](tel:908-237-5409).
